

Stripping Machine

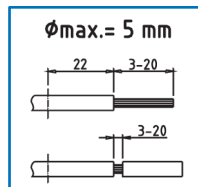

AI 01

With a high reliability and the largest cross-sectional range on the market, AI-01 machine provides solutions to your wire-stripping needs. The AI-01 is driven by an electric motor, and is capable of very precise stripping of various insulated wires. In addition, a special funnel to infeed thin wires is also provided. This version has a user-friendly design with the following features:

- Electrically driven stripping machine
- Integrated touch display with metric or US customary units
- Precise stripping of various insulated wires
- Variable adjustment of stripping length and pull-off length
- Spare blade integrated (double-sided V-blades)
- Cross-section continuously adjustable without changing tools
- Low weight and compact build

The **AI 01** is our basic model stripping machine.

Technical data	AI 01
Stripping range	0.05 – 6 mm ² AWG 30 – 10
Stripping length	3 - 20 mm 0.12 – 0.79 in.
Pull-off length	3 – 20 mm 0.12 – 0.79 in.
Infeed length	22 mm 0.87 in.
Max wire outer diameter	5 mm 0.196 in
Cycle time approx.	0.5 s
Power supply	100 – 240/50 – 60/70 V/Hz/VA
Dimensions (w x d x h)	190 x 295 x 190 mm 7.5 x 11.6 x 7.5 in.
Weight approx.	7.5 kg 16.53 lbs.
Order Specifications	V10AI000800 (EU) V10AI000801 (USA)
